

Pham Thi Ha Thi

Senior Product Designer

Hi, I'm Thi, a designer with 10+ years of experience designing digital products for millions of users in real estate, audiobook, healthtech, fintech, event ticketing, and more.

My core strength is end-to-end ownership, from user research to shipping design solutions with cross-functional teams. I believe good design is not just polished visuals; it must be user-centric, problem-solving, and measurable.

Binh Hung, Ho Chi Minh
